Corporate Profile

Company:

■ **Lexi-Comp, Inc.** provides clinical information solutions to the healthcare industry, publishing point-of-care content utilized in both in-patient and out-patient settings. These advanced resources help improve patient outcomes, medication safety, and workflow efficiency. Pharmacotherapy knowledge areas include drug information for adult, pediatric, and geriatric populations; medication interactions; laboratory tests and diagnostic procedures; pharmacogenomics; poisoning and toxicology; dentistry; infectious diseases; and patient education. Over 500,000 clinicians worldwide access Lexi-Comp's content via the Internet, mobile devices, and through integration with health information systems. An extensive library of print titles is also available.

To learn more about Lexi-Comp's clinical information solutions, call 800.837.5394, 330.650.6506, or visit www.lexi.com.

Services and Platforms:

Lexi-Comp® ONLINE™ – An Internet-based library of databases and enhanced search technology that offers users time-sensitive clinical information at the point-of-care.

Lexi-Comp® ON-HAND™ – Handheld software solutions providing portable access to Lexi-Comp's clinical information. Available for the iPhone™ and iPod® touch, for mobile smartphones, including BlackBerry® and Windows Mobile®, as well as for Palm®, and Pocket PC devices.

Lexi-Comp® Integrated™ – Lexi-Comp's drug data solution that provides a core clinical decision support framework for healthcare information technology vendors, consumer health websites, and hospitals. Provide decision alerts and drug monographs within workflow applications to help clinicians save time and improve medication safety.

Lexi-Comp® ON-DESKTOP™ – Versatile application providing delivery of Lexi-Comp content to workstations or intranet servers, without the need for constant Internet access.

LEXI-COMP® Knowledge Solution™ – The Lexi-Comp package that provides institutions with access to all of Lexi-Comp's reference and data solutions. Provide consistent information to all clinicians throughout your entire organization with access to Lexi-Comp® ONLINE™, Lexi-Comp® ON-HAND™, and Lexi-Comp® Integrated™.

LEXI-COMP® Information Management System™ (LIMS) – A Web-based editing system for healthcare organizations to manage formulary and hospital-specific content across all Lexi-Comp platforms.

Point-of-Care Information:

Lexi-Drugs® – Provides over 1,700 comprehensive drug monographs covering more than 8,000 U.S. and Canadian generic and brand names.

Pediatric Lexi-Drugs® – Provides over 800 comprehensive drug monographs covering more than 6,000 U.S. and Canadian generic and brand names. Monographs include detailed dosing guidelines for neonates, infants, and children.

Lexi-Interact™ – A program available on all platforms where a patient-specific profile can be analyzed for drug, food, herbal, and alcohol interactions. Lexi-Interact consists of more than 2,000 interaction monographs.

Continued on the reverse side

Patient Care Module – Patient education leaflets covering over 1,700 adult medications, 800 pediatric medications, and over 1,200 diseases, conditions, and procedures. Printable in up to 18 languages.

Lexi-CALC™ – A series of medical calculators useful for making point-of-care decisions.

Lexi-Tox™ – a comprehensive toxicology reference addressing the most commonly encountered poisons (chemicals, drugs, foods, bites, nuclear, biological and terrorism agents) and nontoxic agents, as well as antidotes and decontaminates, household products, toxicology-specific calculators, and drug identification. Designed especially for first responders and hospital emergency department personnel.

Other Databases Include – Dental Lexi-Drugs®, Geriatric Lexi-Drugs®, Lexi-Pharmacogenomics™, Lexi-Lab & Diagnostic Procedures™, Lexi-Drug ID™, Lexi-Natural Products™, Lexi-Drug Allergies™, Lexi-Pregnancy & Lactation™, Lexi-Companion Guides™, Lexi-I.V. Compatibility™*
